

	University of Baguio Research and Development Center	UBRDC-RM Doc No. 02	Version Number: 05	Version Date: 10.01.2017
	RESEARCH MANUSCRIPT: PROPOSAL EVALUATION by the UB-REC	Effectivity Date: 10.01.2017		Honorarium Based
		Title of Study:		

	YES	NO	REMARKS
1. A justification of the need to conduct the study given the current state of knowledge is discussed.	<input type="checkbox"/>	<input type="checkbox"/>	_____
2. An assurance that the participants will not be coerced to participate is given.	<input type="checkbox"/>	<input type="checkbox"/>	_____
3. How the researcher will obtain voluntary informed consent of the prospective participants is adequately discussed.	<input type="checkbox"/>	<input type="checkbox"/>	_____
4. The benefits the participants will derive from the research during and after the study are explicitly stated.	<input type="checkbox"/>	<input type="checkbox"/>	_____
5. A discussion on the precautions to minimize the negative impact of the study on the participants is provided.	<input type="checkbox"/>	<input type="checkbox"/>	_____
6. A clear discussion on how the privacy of the participants (anonymity) will be protected and respected is provided.	<input type="checkbox"/>	<input type="checkbox"/>	_____
7. Measures to guarantee the confidentiality of the participant's information are described.	<input type="checkbox"/>	<input type="checkbox"/>	_____
8. An information dissemination mechanism is sufficiently described by the proponent/s.	<input type="checkbox"/>	<input type="checkbox"/>	_____
9. The proposed methods for testing the stated hypothesis are appropriate.	<input type="checkbox"/>	<input type="checkbox"/>	_____
10. In general, there is a detailed satisfactory description of the procedures, invasive or not.	<input type="checkbox"/>	<input type="checkbox"/>	_____
11. In studies involving depressed communities, ethnic groups and vulnerable population, there is a provision made for extended care.	<input type="checkbox"/>	<input type="checkbox"/>	_____
12. The research design is appropriate for the study.	<input type="checkbox"/>	<input type="checkbox"/>	_____
13. The study is NOT a duplication of a previous study.	<input type="checkbox"/>	<input type="checkbox"/>	_____
14. The selection of participants ensures objective and non-discriminatory procedures.	<input type="checkbox"/>	<input type="checkbox"/>	_____
15. A provision is made that participation in the research is voluntary and that participants can withdraw anytime.	<input type="checkbox"/>	<input type="checkbox"/>	_____
16. There is a provision made for the participants to be informed of the results of the study.	<input type="checkbox"/>	<input type="checkbox"/>	_____
17. There is evidence that the participants will not suffer long term physical, emotional and psychological harm as a consequence of participating in the research.	<input type="checkbox"/>	<input type="checkbox"/>	_____
18. The participants will NOT be spending or using their resources for the research.	<input type="checkbox"/>	<input type="checkbox"/>	_____
19. There is evidence of the contribution of the study to improvement of life, systems and processes and most especially to the groups involved.	<input type="checkbox"/>	<input type="checkbox"/>	_____

*** for epidemiologic research, social research, and research on specific population (in emergencies and disaster, indigenous peoples, pediatric population, older persons) refer to the National Ethical Guidelines for Health Research 2011 for additional guidelines not covered in the above)***
